## IMMUNIZATION REQUIREMENTS 2014–15

The following immunization requirements are mandated by law for all students between the ages of two months and eighteen years. Children must be excluded from school if they do not meet these requirements.

A child's immunization history must include all of the following vaccines to be considered fully immunized. Their immunization record should be evaluated according to the grade they are attending this school year.

### PROVISIONAL REQUIREMENTS

New students may enter school provisionally with documentation of at least this initial series of immunizations. Once admitted provisionally, subsequent vaccines must be administered in accordance with the Advisory Committee for Immunization Practices (ACIP) 'catch up' schedule for the child to be considered 'in process' and remain in school (refer to <http://www.cdc.gov/vaccines/schedules/hcp/imz/catchup.html> for schedule). Alternative schedules are not acceptable. Students must complete the entire series to comply with the law. Students who have not been immunized within the provisional period must be issued exclusion letters and excluded from school until they comply with the requirements.
